## How the Mormon Elders are Maligned.

We have repeatedly been charged with maligning and slandering the leading "saints" in Utah, and the Prophets and Bishops of the church are constantly crying out against what they are pleased to term the persecution of the Gentile world. From listening to some of their whining "sermons," one would suppose that they really are the worst used people in the world. It is true that from time to time we have charged them with fraud and extortion; with robbing the weak and helpless to enrich their own coffers, and add to their own grandeur. Not long since we said that for every sin and crime we had charged them with, we had answering proof from their own records. Below is the testimony of Brigham Young as to the honesty and capacity of some of his Elders. Let the Mormon people read it and ponder well on the lesson it teaches. The Vedette has never uttered a severer criticism upon the Mormon leaders than is contained in the following extracts from Brigham's "sermons" in the Tabernacle:

"Most of the elders who preach from this stand, ought to be kicked out of it, and then kicked into it again; until they overhaul themselves, and find out what is the matter with them!"

"There are men here by the score who do not know their right hand from their left, so far as the principle of justice is concerned. Does our High Council? No! for they will let men throw dust in their eyes, until you cannot find the millionth part of an ounce of common sense in them. You may go to the Bishops' Courts, and what are they? A set of old granies. They cannot judge a case pending between two old women, and only a small portion of it has come into the general Tithing Office. They stole it to let their friends speculate upon! If any one is doubtful about this, will you not call on me to produce my proof before a proper tribunal? I should take pleasure in doing so; but we pass over such things in mercy to the people."

Now, what worse than the above have we ever said against these same Polygamous Elders and Bishops? The question naturally resolves itself into this: Who "slandered" the Mormons most,—Brigham Young or the Vedette?

## CONGRESSIONAL.

### SENATE.

Washington, March 19. Wilson reported the House bill appointing twelve trustees for Soldiers' and Sailors' Home, to obviate the difficulty of getting the quotation of the one hundred corporations together. Passed, and the bill now goes to the President.

Fessenden made a proposal of explanation about the published letter of Wm. A. Graham, saying that while the Joint Committee could not allow his (Graham's) request to cross-examine witnesses, they desired the investigation to be full and impartial, and were ready to hear any witnesses who could throw light on the subject. Graham's error was in the belief that the testimony had closed because evidence was stringent. It had not closed, except in case of Tennessee, and if Graham wished to introduce further testimony in the case of North Carolina, he could do so.

Conness introduced the following, which was adopted: Resolved, That the Secretary of the Navy furnish Congress with a report of navy observatory of surveys of the proposed routes for railroads, specifying the relative merits of Honduras, Tehuantepec, Nicaragua and Panama lines. Also, whether the Isthmus of Darien had been satisfactorily explored.

Williams introduced a bill for equalizing bounties, on the basis of \$8.13 per month, bounties heretofore paid to be deducted, and the proceeds of the common tax to be specially assigned for this purpose. Referred to the Military Committee.

The House concurrent resolution for the adjournment of Congress was received and referred to the Finance Committee.

Doolittle called up the bill for the annual inspection of Indian affairs, which establishes five districts—1st, California, Nevada and Arizona; 2d, Oregon, Washington and Idaho; 3d, Colorado, Utah and New Mexico; 4th, Kansas, Nebraska, and Southern Dakota; 5th, Minnesota, Northern Dakota and Montana. It provides for the appointment of five inspectors by the President to hold office four years, each of said inspectors to be joined by an officer of the army and by a citizen annually appointed, the boards so recognized to make annual inspection of all treaties in their respective districts, and appoint their successors.

### HOUSE.

Washington, March 19. In the House Hooper, of Mass., introduced the following: Be it enacted, that the act of March 3d, 1855, shall be extended and construed to empower the Secretary of the Treasury to sell any descriptive bonds, authorized by said act at rates not less than par for lawful money or certificates; indebtedness which shall thereupon be cancelled so that the public debt be not increased, and after July 1st, interest on certificates and deposit or temporary loans shall not exceed five per cent.

Hooper stated that the bill for the general purpose having been defeated last week, he had introduced this, and wished to have it referred, it embodied what was said from the discussion last week to be the sentiment of a large majority in the House. Will read twice. Referred to Committee on Ways and Means.

Kasson introduced a bill to amend the

act of July 18th, 1863, to aid in the construction of the railroad and telegraph from the Missouri River to the Pacific. Referred to Committee on Pacific Railroad.

Bidwell introduced a bill to enable the State of California to reclaim lands within the limits of that State. Referred.

Devise, of Penna., offered a resolution declaring that the United States cannot guarantee bonds of the Mexican Republic or any other Government, without impairing its own credit, and imposing new burdens on the people. The House refused a second demand for the previous question and the resolution went over.

Windom, of Minnesota, introduced a joint resolution authorizing the Secretary of the Interior to pay certain claims out of the balance of the appropriation for expenses of Indian affairs. Referred.

Garfield, of Ohio, offered a resolution which was adopted directing the Committee on printing to inquire into the expediency of publishing the report of the explorations across the great basin of Utah, to San Francisco in 1859, by Captain Simpson, Engr. Corps.

Garfield's motion to reconsider the vote by which the Loan Bill was lost, on Friday, came up, the motion to lay that motion on the table was lost by yeas 20, nays 79. The House subsequently by yeas 81, nays 67, reconsidered the vote by which the Loan bill was rejected.

Ansons of Pennsylvania, offered a concurrent resolution that Congress adjourn on Thursday the blank day of May.

Washburne asked, if in order, to fill blank with last Thursday.

May, (Speaker) "only by unanimous consent."

Genie of Rhode Island, objected. Morrill, remarked that such resolution was premature until the appropriation bill was passed, and called for yeas and nays, which resulted yeas, 80, nays 64. Resolutions passed.

Coffuth of Pennsylvania, offered a resolution, adopted, instructing the Military Committee to report at an early day the bill equalizing the bounties of all soldiers and sailors during the late war.

## GENERAL NEWS.

Chicago, March 19.

Eli Thayer, formerly member of Congress from Massachusetts, is stumpng Connecticut for the Democratic ticket. In a speech at New Haven he said it was the duty of the Government to let the people alone. Constant interference by Congress must be checked, and that right must be restored, which Congress had trampled under foot. He said if Johnson had been President 4 years ago it would have been better for the country, because he would have throttled Congress, which made all the trouble. He said he had been called Radical Republican, whereas his fiercest political enemies were radicals.

Senators Sherman, Nye and other leading members of Congress have gone to Connecticut.

The Secretary of the Treasury has appointed new commissioners to examine and report concerning the site for a mint at San Francisco, to consist of Collector Miller, Secretary of the Mint, and Albert Dibble.

The special mail service from Susanville, Cal., to Boise City, was contracted for by L. T. Williamson, of San Francisco, at \$35,000 per annum. The weekly mail from Boise City to Humboldt, Nev., by Albert R. Beckwith, for \$2,000. The San Jose and Redwood City will apply for lands and bonds along their road, claiming to be part of the Pacific Railroad, under assignment from the Central Pacific to the Western Pacific Railroad Co., ratified by act of Congress last Summer.

A bill restoring the death penalty was defeated in the Wisconsin House of Representatives; yeas 31, nays 50.

New York, March 20.

In this city the Central Council of Fenians at Union Square are in secret session, but nothing of their proceedings was given to the public. The funds and rifles are still flowing in both here and at the Sweeney headquarters, and it is reported that some important features are now in process of development. It is currently reported that O'Mahony has within a few days sent off an expedition of five thousand men to some point unknown to the public. The total strength of Sweeney's force, organized into regiments and battalions, up to date, is given as 53,000. It is stated that before the month passes the number will be doubled. Contributions of money and munitions of war continue to pour into the treasury and ordnance departments of both branches of the Brotherhood.

The Tribune's special says, the co-conspirators Sweeney, Mull and Loughlin at last accounts from the Dry Tortugas were taking their imprisonment very philosophically and conducted themselves so as to get released from the heavy load they have been wearing.

## Foreign News.

New York, March 20.

The Herald's Toronto dispatch from Ottawa says that a battery left there for the frontier on Saturday; other detachments of troops for the frontier are reporting from different points. The organization of new companies is going forward with great activity, and the alarm seems unabated. Every body now believes the Fenians mean to make a desperate attempt to obtain possession of Canada, to use as a base, and very little dependence is placed on the American Government's professions of neutrality. The authorities feel that they can expect no sympathy from the United States, and must help themselves, if they would maintain peace. Statements show that ten thousand regulars and ten thousand volunteers are under arms, and fifteen thousand more volunteers are drilled and armed, but not under pay.

Further advices from Havana, per steamer Manhattan, state that the numerous recent fires throughout the island are attributed by one of the Havana journals to negro incendiaries. The discovery of a plot on the part of slave-traders to destroy one of the Havana newspaper offices, is reported.

The further progress of the Royal Commission in the work of investigating the Jamaica revolt, is reported in the Herald's Kingston correspondence. Abundant evidence, it is said, has already been produced to show that the affair was not merely a sudden and unpremeditated outbreak, but a deliberately organized rebellion, with the ultimate design of murdering or driving from the island all the whites. The members of the commission are expected to leave for England on the 26th inst.

The entire British West India squadron is ordered to Halifax. A strong feeling in favor of the annexation of Jamaica to the United States is manifesting itself among the people of that island.

In Hayti, sixty-two persons charged

with being concerned in the revolutionary movement in that Republic, had been arrested, and it was supposed that twenty of them would be executed.

New York, March 20.

The Herald's Rio Grande correspondent gives further particulars regarding the Platte River war. Immense preparations were making for the battle which was imminent. At the date of the latest advices the allied armies of the Paraguayans and Uruguayans, numbering about fifty thousand, and supported by a considerable and efficient naval fleet, are on the bank of the Parana river, in the vicinity of Paso de Lapatrie, controlled on the north side by the Paraguayans, estimated at only 20,000 men. Defensive works of great strength, however, possessed by the latter, neutralize the numerical advantages of their enemies. The Allies designed soon to attempt the passage of the river, and a desperate struggle was expected. They had also in contemplation a flank movement and an attack on the Paraguayans' rear. Parties of Paraguayans had crossed in boats over the river, and skirmishing had occurred. The Allies, however, repulsed the Paraguayans with small loss.

The Herald's Toronto special says a plot is reported to have been discovered to blow up the drill-shed and volunteers while drilling. A large city sewer runs under the drill-shed, with its entrance a hundred yards off. Report says that barrels of powder are to be rolled up the sewer, and when the volunteers meet for drill in the shed, the whole are to be blown up. The sewer is now guarded day and night.

Advices per steamer Marietta, from Vera Cruz, shows the promised imperial pacification of the country is far as ever from realization, and that the republicans still maintain the contest with the invaders in nearly all stations with stubbornness and energy. Not the slightest indication of the intention of the French to withdraw is yet apparent. Several additional fights are recorded. The victory of General Mendez over the republicans in Michoacan, is claimed to have been far more important than at first reported, and he afterwards had a brilliant reception at Morelia in honor thereof. Mendez says himself that he fought the hands of several chiefs combined, that he had a hard battle and that his own losses were severe, confirmation is furnished regarding the critical position of the imperialists at Chimpico, the republicans are threatening the town being in force within 30 miles of it, in the Pacific States, the Imperialists were still confined to a few parts, the Republicans holding all the country, the latter had boldly attacked the garrison of Mazatlan on three occasions within five weeks. Lieut. Maury, Maximilian's Minister of colonization had left for England.

## From Idaho.

We find the following items of interest in our clever exchange, the Owyhee Avalanche. In speaking of the murder of Brown and Mott, it says:

Aside from the loss of property, here are two more victims of these biped hyenas. Two more good men have given their lives in pioneer pursuits. Tons are the arguments painfully multiplied in favor of more troops and the utter extermination of the Indian tribes. The San Jose and Redwood City will not protect her pioneer citizens? That there are thousands of soldiers for old established settlements and none for the new? That the men who more than any others are bringing to light the hidden wealth of the nation, and living a life of privation and toiling, are to receive no encouragement? That the savages who delight in stealing and burning his property, taking his life, scalping his lifeless corpse, cutting his heart out, &c., &c. are to be fed and clothed for so doing? as they do nothing else. How long? Ye red tapists, how long?

Capt. White was to leave Camp Lyon on last Tuesday, with a fighting force, objective point, the Indians. Walker is to be on the march again next Tuesday. The last heard of the Ada Co. Volunteers were making for the Brunan River in strategic style—marching at night and in a manner, hiding their strength by day.

FLINT DISTRICT ITEMS.—Mr. J. A. Lytle informs us that the Lone Jack Lodge, a continuation of the Morning Star, discovered in February by John Boyd & Co., has been negotiated to Mr. Coleman at \$35,000. The Excelsior lodge, owned by same parties, has also been negotiated at same figures—money to be paid in June. Among new discoveries made this Spring, are the Forrest, Daylight, Judge Hays, Midas, Regulator, and Owyhee Chief lodes all claimed to be rich in silver. Large quantities of ore are out at the different shafts, sorted and ready for crushing—at one shaft on the Rising Star, as much as three hundred tons that will go \$150 per ton. Snow is disappearing fast and miners are preparing for systematic work this Summer. [Expect, in a fit of excitement, we'll expect-sack our concern and set to work under a willow in Flint when the snow goes off.]

DRUGS & MOORE'S RETAIL PRICES.—Flour \$3.00 per cwt; Oats, \$2.00; Barley, \$2.50; Bacon, 70c per lb; Butter \$1.25; Sugar, br. 50c—crushed, 60c; Coffee, 70c a 75c; Tea, \$1.50 a \$2; Tobacco, \$2 a 2.50; Kerosene Oil per gallon, \$8; Lard Oil \$8; Boiled Oil, \$8; Gunpowder, \$18; Blakes, \$15 a 16; Brown Sherrings, 60c per yd.—Bleached, 60 a 75c.

LYONSVILLE.—The old worthless fire-bricks are still bothering them more or less at the smelting works. They find they cannot use them anywhere, either in the flues or furnaces. Dr. Johnson intended to have finished off another button, yesterday, but for the detention caused by the burning out of some of these bricks in the flue could not. It will probably be done in the first part of next week. Some alterations are being made in the blast-furnishing arrangements of the Scotch Heaths by which they hope to work a portion of them at least. A series of small experimental furnaces with independent smoke-stack has just been completed, and was ready for work this morning. Crushing and dressing the ore is getting more systematized and expense is therefore being reduced. Mr. Lyon has reached New York, and is going to send on more experienced workmen.—Black Hawk Journal.

An Irishman was about to marry a Southern girl for her property. "Will you take this woman to be your wedded wife?" said the minister. "Yes, your riverance, and the nagers, too."

### FUNERAL NOTICE.

The funeral of Mrs. Mary M. Peugh will take place at one o'clock P. M. Wednesday, March 21st, at the residence of Thomas M. Peugh, on Emigration street, Twelfth Ward.

Relations and friends are invited to attend.

By reference to our advertising columns it will be seen that the General Invitation Ball at Camp Douglas, is postponed until Tuesday evening, March 27th, on account of the boys not being paid off. Let there be a general turn out on that evening.

**LECTURE.**—The Young Men's Literary Association have the pleasure of announcing that Capt. GEORGE F. PRICE will deliver a lecture in INDEPENDENCE HALL, Thursday evening, March 22d. Subject: GOOD FRUITS OF THE SOUTHERN REBELLION.

Lecture to commence at 7.15 P. M., seats free. The public are invited to attend.

It is doing a smashing business in the tonorial line. He keeps five operators hard at work from morning until night, while two colored juveniles are equally as busy at his boot blacking stand at the foot of the stairs. His rooms are among the finest on the Plains, and he will have no one about who does not understand his business.

Is another column will be found the card of Messrs. CLIPPERTON and WOOD, who have just opened a law office in this city. It affords us true pleasure to make this announcement, as both the members of the firm are gentlemen of thorough classical and professional education and good business capacity. Capt. Clipperton, while in the Michigan Cavalry won the reputation of being one of the best Judge Advocates in the Army of the Potomac, while Mr. Wood, the junior member of the firm, is favorably known to many residents of the Plains, as the former gentlemanly editor of the Daily Gold Hill News.

**ADVERTISE IN THE WEEKLY VEDETTE.**—We desire to direct the attention of our friends and the public generally to the fact that our Weekly edition is rapidly gaining in circulation. The enterprise is succeeding beyond our most sanguine expectations. The Weekly offers superior inducements to our advertising patrons, and we solicit an extension of their favors to its columns. The Daily and Weekly will be enlarged as soon as possible. In fact we will be compelled to enlarge the Daily at a very early day, in order to accommodate our advertising patrons.

As usual, the VEDETTE was made the subject of extended remarks, in the Tabernacle on Sabbath morning. One speaker said in substance that "the vile, dirty, nasty sheet had been tolerated long enough in this community, and that it should be suppressed, etc." We understand the wishes of the leaders in the respect fully as well as they do themselves, but we laugh a quiet laugh all to ourselves when we think that the now of Utah is vastly different from what it was several years ago. We are of the opinion that the leaders will have to tolerate the VEDETTE a little while longer, and we are quite confident before it is suppressed it will proclaim the deliverance of Utah from degrading bondage and thralldom. While leaders are thus blatant and bombastic, it is gratifying to know that at no time during the history of Mormonism in Utah, has there been such wide spread dissatisfaction among the people as there is now. No wonder the leaders want the VEDETTE suppressed,—"the vile sheet" is rapidly working their overthrow and breaking the iron bands of priestly tyranny.

### OPINION OF THE PRESS.

The Vedette comes out again on a full sheet with a new head, the best feature of which to our taste is a mounted, armed, and equipped soldier—"a champion brave, alert, and strong, to aid the right, oppose the wrong." We notice the Vedette opposes the partitioning of Utah between the surrounding Territories, as proposed in certain quarters. We trust it will not be done. The spirit of the Western people and the discovery of mines will work the remedy for Mormonism of themselves, give them a little time. There is no conceivable division of the Territories that could conform better to the characteristics of the country than the one now prevailing.

The Vedette is now two years old and with its third year starts a weekly edition. Its subscription price is \$3. a year, or \$5. for six months. It is the "wooden horse" within the walls of Troy—send for a copy of it. Goldrick has gone on a soliciting tour through Montana and Idaho, and the columns of the Vedette will possess unusual interest during his travels—not because he is gone and yet because he is gone.—Black Hawk (Cal.) Journal.

**THE GREAT "GENTLE" OF SALT LAKE.**—The Daily Union Vedette, the anti-Mormon paper of Salt Lake City, was started by the soldiers of Camp Douglas, and is now two years old. It has been very successful, and now it is improved in appearance, and enabled to issue a large weekly besides the daily. It is ably conducted—always entertaining, forcible and sprightly.—San Francisco Flag.

For a good central organ of Montana

and Idaho news, the Vedette, at Salt Lake City, offers the most favorable inducements. The Vedette is both fair and liberal in its news summary of Idaho and the other neighbors, and its telegraphic is full of the latest. Daily, \$16 per year—six months, \$9; weekly, \$3—6.—Owyhee (Idaho) Avalanche.

**THE VEDETTE.**—This sprightly anti-Mormon paper, published in the very teeth of the tiger at Salt Lake, comes to us with a new heading, and otherwise improved. The Vedette will soon appear enlarged and on new type, the material having been laying some months in this city awaiting transportation. The number before us announces that Mr. Goldrick was about starting on a soliciting tour to Montana and Idaho. "Success to you, old Top."—Denver News.
